

AI Content Marketing using UGC Ads

Project Overview

This deliverable details the engineering workflow and generated tactical assets for a local **Dental Clinic** UGC campaign. To ensure grading transparency, the layout explicitly isolates the **Structured System Prompt** from the resulting **AI Model Outputs**.

Phase 1: Prompt Engineering Framework

The following prompt layout dictates constraints, baseline parameters, and corporate positioning to force high-conversion peer-to-peer outputs from the LLM:

EXECUTED SYSTEM PROMPT

Act as an expert DTC and Local Business Performance Marketer specializing in UGC (User Generated Content) ad scripts for TikTok, Instagram Reels, and YouTube Shorts.

I need a complete UGC Ad Content Pack for a local Dental Clinic. The clinic's unique selling propositions (USPs) are:

- 1) A strict "No-Guilt, No-Judgment" policy for patients who haven't been to the dentist in years.
- 2) Affordable, transparent pricing.
- 3) Advanced pain-free technology.

Deliver the following structured outputs:

1. 3 Psychology-driven, "scroll-stopping" hooks tested for 3-second retention.
2. 2 Complete Short-Form Video Scripts (60 seconds) following the Problem-Solution-CTA framework, including visual/audio cues.
3. Platform-specific variants for Instagram/Facebook and YouTube Shorts.
4. Optimized captions with high-intent CTAs and hashtag strategies.

Tone: Authentic, casual, empathetic, peer-to-peer (NOT corporate or clinical).

Phase 2: AI-Generated Deliverables

AI OUTPUT 1: SCROLL-STOPPING HOOKS (FIRST 3 SECONDS)

Engineered via retention metrics to eliminate initial user-scrolling behaviors:

Hook #	The Scripted Hook Line	Psychological Trigger	On-Screen Visual Setup
Hook 1	"Stop scrolling if you're secretly terrified of the dentist making you feel guilty."	Fear Removal	Creator looks directly into camera with an anxious, relatable face.
Hook 2	"POV: You haven't been to the dentist in 5 years, but you finally found one that doesn't judge you."	Social Validation	Text overlay. Creator walks confidently into a bright lobby.
Hook 3	"This is your sign to stop hiding your smile in photos because you think dental work is too expensive."	Financial Relief	Creator holds up phone showing a mouth-covered picture, then smiles.

AI OUTPUT 2: PROBLEM-SOLUTION-CTA VIDEO SCRIPTS

Script 1: The "No-Judgment" Reality Check (30–45s)

[VISUAL]: Creator in car, talking naturally to front-facing camera.

[AUDIO]: Upbeat, low-volume lo-fi track.

CREATOR: "Okay, real talk. I didn't go to the dentist for almost four years. Every time I thought about booking an appointment, I just pictured getting scolded by a hygienist for not flossing enough."

[VISUAL]: Cut to creator walking into clinic door, greeted with a warm smile by reception.

TEXT: No lectures. Just care.

CREATOR: "But then I found [Insert Clinic Name]. Their entire thing is a strict 'No-Judgment' policy. When I stepped in, nobody asked why it took me so long. They literally just wanted to help me get my smile back on track."

[VISUAL]: Fast montage: modern sleek tools, laughing with the dentist, looking at clean teeth in mirror.

CREATOR: "They used pain-free tech, broke down the pricing transparently, and made me feel completely safe. Click below to book your guilt-free consultation today!"

Script 2: The Cosmetic Confidence Boost (30s)

[VISUAL]: Creator applying lip balm in mirror, smiling, looking insecure at teeth.

[AUDIO]: Trending upbeat sound bed.

CREATOR: "I used to do that weird, closed-mouth smile in literally every single photo. I thought getting a professional deep clean and whitening would cost me an entire month's rent."

[VISUAL]: Smooth transition to creator sitting relaxed in a dental chair with safety sunglasses on.

CREATOR: "Then I tried [Insert Clinic Name]. Not only do they have amazing local pricing, but they map out your plan with zero hidden fees. Look at how bright my smile looks after just one visit!"

[VISUAL]: Creator smiling confidently outdoors in natural sunlight.

CREATOR: "Stop hiding your smile. Hit 'Book Now' to check out their New Patient specials!"

AI OUTPUT 3: PLATFORM VARIATIONS & CAPTIONS

Instagram Reels & Facebook Ads

You shouldn't have to feel anxious or guilty just to take care of your health. 🦷✨

At [Insert Clinic Name], we have a strict **No-Judgment Zone**. Whether it's been 6 months or 6 years since your last dental visit, our team is here to give you a comfortable, pain-free experience with 100% transparent pricing. No lectures. Just beautiful, healthy smiles. 🙌

 Tap the '**Learn More**' button below to lock in our New Patient Special today!

Conversion Optimization Summary

- **Hard-Bake Dynamic Text:** Ensure prompt hooks are permanently rendered during video frames 0–3 seconds.
- **Keep Production Raw:** Avoid studio ring lighting configurations; rely heavily on native user conditions.
